CAREER OBJECTIVE

Motivated Electrical and Electronic Engineering graduate with experience in engineering projects, U.S. healthcare RCM, medical billing, and workflow automation. Seeking a challenging role to apply my technical, analytical, problem-solving, and automation skills to improve operational efficiency, contribute to organizational goals, and pursue continuous professional growth.

PROFESSIONAL EXPERIENCE

Executive, Billing Department
DocPro Health Inc. | Dhanmondi, Dhaka
June 2026 – Present

- Perform medical coding (CPT & ICD-10-CM), pre-visit activities, payment posting, billing reports, and RCM operations using eClinicalWorks (eCW) and MDLand.
- Design and develop automation solutions to streamline EOB/ERA processing, payment posting, claim checking, and balance adjustments.
- Developed automation for eCW EOB Posting, MDLand EOB/ERA Posting, Availity Claim Checking, eCW Balance Adjustment, Processed-to-CCM, and Rejected-to-Paid workflows.
- Develop additional practice and provider workflow automations to reduce repetitive manual tasks and improve billing process efficiency.

Project Engineer
RAS Engineering Construction | Township Project, Rampal Thermal Power Plant
2023 – 2024

- Supervised construction and electrical installation activities, ensuring compliance with design specifications, safety standards, and quality requirements.
- Coordinated with technicians and contractors to monitor on-site work, resolve issues, and maintain timely project progress.
- Monitored electrical wiring, equipment installation, and site activities to ensure efficient execution and project quality.

EDUCATIONAL QUALIFICATION

Bachelor of Science in Electrical and Electronic Engineering (B.Sc. in EEE)
East West University, Aftab Nagar, Dhaka | 2026
CGPA: 3.13 out of 4.00

Higher Secondary Certificate (HSC) | Science
Sylhet Govt. College, Tilagar, Sylhet | Sylhet Board | 2020
GPA: 3.92 out of 5.00

Secondary School Certificate (SSC) | Science
Jahir Tahir Memorial High School, Shibbari, Sylhet | Sylhet Board | 2018
GPA: 4.39 out of 5.00

ACADEMIC & TECHNICAL PROJECTS

- LPG Cylinder Monitoring System with Leak Detection and Auto-Shutoff
  [Final Year Capstone Project]
- Fire Detection Alert System Design using PIC16F690
- Electrical Wiring Installation of a Single Flat in a Multi-Storied Building (AutoCAD)
- Digital Filter Design using MATLAB
- Coil Design for Wireless Power Transfer
- Design of a Low Voltage Transformer for an LED Lighting System
- Simulation and Analysis of Power Flow and Fault Conditions in Power System
- NOR 3 input schematic, symbol and layout Generation
- Basic Performance Analysis of a Solar PV Power Plant and a Wind Power Plant in MATLAB
- Advanced PLC-Based Automatic Bike/Car/Bus parking slot management system
- A grid-connected PV system in a Residence building

TECHNICAL SKILLS

Name		Practical Experience
Technical Skills	MS Office, MATLAB, AutoCAD, Proteus, MPLAB, LOGO Soft, Silvaco, Python, C Programming, SAM, Fritzing, Canva	Advanced
Other	Graphics Designing	Intermediate

LANGUAGE PROFICIENCY

Language	Reading	Writing	Listening	Speaking
Bengali	Excellent	Excellent	Excellent	Excellent
English	Excellent	Excellent	Excellent	Good

EXTRACURRICULAR ACTIVITIES

East West University Electronic Club | General Member

- Actively involved in electronics-based workshops and technical training sessions. Collaborated with peers to enhance practical knowledge of electronic components and engineering applications.

East West University IEEE Club | General Member

- Actively engaged in technical seminars, workshops, and professional development activities, enhancing knowledge of engineering standards, emerging technologies, and teamwork.

TRAINING AND WORKSHOPS

1. **Circuit Master Clash – Arduino Edition**
   Participated in hands-on Arduino programming and circuit design challenges, enhancing practical skills in microcontroller-based electronics projects.
2. **Proteus – Gateway to Electronic Design**
   Gained practical experience in simulating and designing electronic circuits using Proteus software, improving understanding of circuit analysis and PCB design.

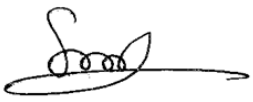

3. **Basic Tools of AutoCAD Software**
   Trained in essential AutoCAD tools and techniques for creating accurate 2D and 3D engineering drawings, strengthening drafting and design proficiency.

INDUSTRIAL VISIT EXPERIENCE

- **NLDC & Rampura 230/132 kV Grid Substation**
  Gained practical exposure to high-voltage power system operations, including power transformers, circuit breakers, isolators, CTs/PTs, busbars, and protection systems.
- **Rampal 1320 MW Thermal Power Plant**
  Observed large-scale thermal power generation processes, plant auxiliaries, and grid synchronization of a utility-scale power station.
